Dear partners!

JSC “Slonim WSF” offers yarn for knitting and weaving. We always have a great variety of yarn of different blends, colors and thickness.

Technical capabilities of the company allow to produce combed yarn of circular spinning method with linear density range from 14 tex x 2 to 83 tex x 2 (Nm 71/2 – 12/2; Ne 42/2 – 7/2) for twisted yarn, from 14 tex to 83 tex (Nm 71/1 – 12/1, Ne 42/1 – 7/1) for single yarn, from 65,0 tex to 330,0 tex (Nm 15/1 – 3/1; Ne 9/1 – 1,8/1) for semi-worsted single yarn, from 65,0 tex to 330,0 tex (Nm 15/2 – 8/2; Ne 9/2 – 4,7/2) for semi-worsted twisted yarn.

We use wool, flax (linen), polyacrylonitrile (acrylic, nitron), viscose, polyamide (kapron, nylon), polyester (lavan), cotton, arselon as raw materials.

Our main assortment is:

- Woolen and semi-woolen combed yarn;
- Yarn from chemical fibers and their mixtures with natural fibers;
- 100% PAN;
- 100% high-bulk PAN;
- Semi-woolen high-bulk yarn;
- 50% PAN, 50% cotton yarn;
- 50% PAN, 50% viscose yarn;
- Woolen and semi-woolen raw-white and dyed sliver for yarn production for knitting and weaving;

Dyeing technology, developed by the specialists of our company, allows to get various colors and shades, which coincide with modern trends of the world producers.

All products of the company are manufactured by the codes FEA CN, meet the world quality standards and in accordance with the requirements of the International standard ISO 9001 – 2009.

Delivery conditions: pickup from Slonim, dispatch of goods by container or wagon.

Prices are formed on the terms of FCA-Slonim.
